

Appointing Senior Education Staff and Consultants

Placements in Education has years of experience assisting Boards and owners of schools to find suitable senior staff for their institutions. Each search is unique, and we give our clients personal attention every step of the way through the process. We tailor our fees to the size of the process you wish to engage in to hire the person you require, and provide a full proposal with timelines for the project on request.

Sometimes it is not necessary to appoint a person full time - or even for a lengthy period. Placements in Education is in touch with a range of Consultants who can help to design or redesign programs. In the case of Consultants, our fee is paid by the Consultant you appoint.

Senior Staff Placements and Consultant Referral are both undertaken by Alison Papenfus, who founded Placements in Education in 1994. She has years of experience working in schools and in education recruitment which benefit clients at every level.

If you are in need of senior staff or would like to talk through the possibility of a consultant handling a project, please contact
